

Wrap-Around Language Game

Grades 1-2

This easy-to-play game is a great way to practice essential language concepts with the whole class! As students match up the answers on their cards with questions on other students' cards, they get valuable practice with essential language skills.

How to Play

- Download and print the cards. Cut them apart on the dotted lines.
- Hand out one card to each student. If there are fewer than 35 students in your class, some will get more than one card. (In order to play the game correctly, all of the cards need to be played. Play can start with any card in the set.)
- Choose a student to go first, and have her read her card aloud. For example, the first student might read, "I have brush. Who has a word that begins like swim?"
- The student who has the card with the word "swing" then reads that answer aloud: "I have swing." He will read the question at the bottom of his card, and the student with the card that answers the question responds.
- Every card in the set is connected to a card before it and a card after it. To keep the game moving at a quick pace, all students need to pay attention to every question that's asked!
- Play continues in this fashion until all of the cards have been played. The game will end with the same student who started play.

Beginning
Sounds 

I have
brush.

Who has a word that
begins like swim?

©Lakeshore

Beginning
Sounds 

I have
swing.

Who has a word that
begins like milk?
